

# Updates

## Receipt Tithes/Offerings

### What's new?

The new layout follows the same standard used in the **Remittance** screen, providing greater clarity and making the data easier to view, without changing any of the information currently available. Everything remains in the same place — now presented with a cleaner, more modern, and more functional design. This improvement has been implemented to enhance navigation speed, improve readability, and provide a more consistent experience across the system.

Type	Date	Responsible	Description	Tithes/Offerings	Exchange Rate	Currency	Total	Church Funds	Conference Funds	Options
Cash	06/01/2024	Noel Bohoussou	Batch Cash Only - 1 <sup>st</sup> Week - Saturday	2	1	£	16,151 £	3,091 £	13,060 £	Receipts Organizer
Dep	06/01/2024	Noel Bohoussou	Batch Deposit/Transfer - 1 <sup>st</sup> Week - Saturday	0	1	£	0 £	-	-	Capture Close
							£	16,151	3,091	13,060

### Filters

The screen includes filters that make it easier to locate batches:

- Sorting (Order By) – Organize records by date.
- Batch Type – 7me, Regular, or Deposit.
- Currency – Filters batches by the currency used.
- Search – Search by the responsible person's name or by the batch description.
- Start and End Date – Allows filtering by period.
- Use the filters to work with greater accuracy and efficiency.

### Identifying Current Batch

You can filter the view to display only the current batch.

Batches that belong to the current batch are highlighted in green, making visual identification easier.

**Batch Types and Camera Icon**

Each batch has a visual identification tag:

- 7me
- Cash
- Dep

**Viewing Receipts**

Next to the number of receipts in the batch, there is a button that allows you to:

- \* Review receipts linked to the batch

Simply click the corresponding icon.

**5. Currency and Conversion Information**

The screen includes a specific column indicating the batch currency.

If there are receipts in more than one currency:

- \* The amounts are displayed separately by currency.
- \* The exchange rate used is shown.
- \* The conversion is presented clearly and transparently.

**Important Tip**

Always verify:

- \* If the batch is correctly identified.
- \* If it belongs to the current batch (green highlight).
- \* If the amounts and currencies are correct before proceeding with closing.
